- Jesse with Bellingham Marine since 2006.
- Approximately 20 years of experience in the construction industry.

Who is Bellingham Marine?

Some Examples of Sudden Maintenance Issues that can “pop up”

Crescent City Marina

Crescent City Marina

Owner:

Crescent City Harbor District

Damage:

2011 Tsunami

Crescent City

Crescent City

Response Plan

- Mobilized a contractor to perform clean up activities on an emergency basis.
- Hired an Engineer to develop a design that would not only replace what they had, but build a marina that could survive a future event.
- Work with us and the local contracting community to come up with a temporary mooring solution.

Crescent City Rebuilt

Crescent City Rebuilt

Port of Brookings

Port of Brookings Harbor

Owner:

Port of Brookings Harbor

Damage:

2011 Tsunami

Port of Brookings Harbor

Port of Brookings Harbor

Response Plan

- ◉ Engaged BMI and a local engineer to discuss options within days of the event.
- ◉ Owner had a stated goal to be up and running again ASAP.
- ◉ Purchased the dock system directly from BMI to expedite the process.
- ◉ Allowed us to really be part of the team to assist them with reconfiguring and salvage goals.

Port of Brookings Harbor

Port of Bellingham

Squalicum Harbor

Owner:

Port of Bellingham

Damage:

2012 Fire Damage

Port of Bellingham Squaticum Harbor

Response Plan

- ⦿ Allowed BMI and onsite contractor to assist with the initial site safety analysis.
- ⦿ Once the site was secured they commenced with the clean up and salvage operation as an emergency action.
- ⦿ Once the site was cleaned up the Port was able to contract the repair work under a preexisting contract to expedite it's completion.
